Optional for unsheltered homeless subpopulations

<sup>\*\*</sup> Includes single individuals, unaccompanied youth, and other adults (such as a married couple without children)

<sup>\*\*\*</sup>For "sheltered" chronically homeless subpopulations, list persons in emergency shelter only.

### L: CoC Homeless Population and Subpopulations Data Sources & Methods Chart

L-1:	Sheltered Homeless Population and Subpopulations
(1a)	Check method(s) used to count sheltered homeless persons in the CoC (check all that apply):
$\boxtimes$	<b>Survey</b> – Providers count the total number of clients residing in their programs during the PIT count.
	<b>HMIS</b> – CoC used HMIS to complete the PIT sheltered count and subpopulation information.
	Other – specify:
(1b)	If multiple methods are checked, briefly describe how data collected using the methods
wer	re combined to produce the count.
	Check the method(s) used to gather the subpopulation information on sheltered homeless sons reported in Part 2: Homeless Subpopulations (check all that apply):
_	Point-in-time (PIT) interviews with each adult and unaccompanied youth – All sheltered
	adults and unaccompanied youth were interviewed to gather subpopulation information.
	Sample of PIT interviews plus extrapolation – A sample of sheltered adults and unaccompanied
	youth were interviewed to gather subpopulation information, and extrapolation techniques were applied to
	produce the total sheltered homeless population.
	Non-HMIS client-level information - Providers used individual client records (e.g., case management
	files) to provide subpopulation data for each adult and unaccompanied youth.
П	<b>Provider expertise</b> – Providers estimated the percentage of clients belonging to each subpopulation
$\overline{}$	based on their knowledge of their client population as a whole.
<u> </u>	HMIS – CoC used HMIS to gather subpopulation information on sheltered homeless persons.
	Other –specify:
	If multiple methods are checked, briefly describe how the methods were combined to
_	<b>duce the subpopulation information.</b> Data was collected for the Point-in-Time (PIT) count by all face-to-face interviews with clients and also extrapolated from case files for those who were
	sent in a shelter on the date of the PIT but were not directly interviewed on the specific PIT date.
-	s previously collected data was used to determine subpopulation categories.
$\boxtimes$	Indicate CoC's steps to ensure data quality of the sheltered count (check all that apply):  Instructions – Provided written instructions to providers for completing the sheltered PIT count.
$\frac{\square}{\square}$	Training – Trained providers on completing the sheltered PIT count.
Ш	Remind and Follow-up – Reminded providers about the count and followed up with providers to
$\boxtimes$	ensure the maximum possible response rate and accuracy.
$\boxtimes$	HMIS – Used HMIS to verify data collected from providers for the sheltered PIT count.
	Other –specify:
<u>(4)</u> 1	How often will sheltered counts of sheltered homeless people take place in the future?
	Biennial (every two years)
Ħ	Annual
	Semi-annual
$\boxtimes$	Other – specify: Quarterly
<b>(5)</b> I	Month and Year when next count of sheltered homeless persons will occur:July 2007
	Indicate the percentage of providers providing populations and subpopulations data
	ected via survey, interview and/or HMIS:
	100% Emergency shelter providers
	100% Transitional housing providers

<sup>100%</sup> Transitional housing providers

\*Please refer to 'A Guide to Counting Sheltered Homeless People' for more information on unsheltered enumeration techniques.

L-2: <u>U</u>	nsheltered Homeless Population and Subpopulations*
(1) Cł	neck the CoC's method(s) used to count unsheltered homeless persons (check all that apply):
	<b>Public places count</b> – CoC conducted a point-in-time (PIT) count <u>without</u> client interviews.
	<b>Public places count with interviews</b> – CoC conducted a PIT count and interviewed unsheltered
$\boxtimes$	homeless persons encountered during the public places count:
	☐ ALL persons were interviewed <b>OR</b> ☐ Sample of persons were interviewed
	Public places count using probability sampling – High and low probabilities assigned to
	designated geographic areas based on the number of homeless people expected to be found in each
	area. The CoC selected a statistically valid sample of each type of area to include in the point-in-time
	count and extrapolated results to estimate the entire homeless population.
	<b>Service-based count</b> – Interviewed people using non-shelter services, such as soup kitchens and
	drop-in centers, and counted those that self-identified as unsheltered homeless persons.
	<b>HMIS</b> – Used HMIS for the count of unsheltered homeless people homeless people or for
	subpopulation information.
	Other – specify:
(2) In	dicate the level of coverage of the PIT count of unsheltered homeless people:
	<b>Complete coverage</b> – The CoC counted every block of the jurisdiction.
	<b>Known locations</b> – The CoC counted in areas where unsheltered homeless people are known to
	congregate or live.
	<b>Combination</b> – CoC combined complete coverage with known locations by conducting counts for
	every block in a portion of the jurisdiction (e.g. central city) AND conducting counts in other
<u> </u>	portions of the jurisdiction where unsheltered persons are known to live.
	Used service-based or probability sampling (coverage is not applicable)
	Other –specify:
	dicate community partners involved in PIT unsheltered count (check all that apply):
	Outreach teams
	Law Enforcement
	Service Providers
	Community volunteers
	Homeless and/or formerly homeless persons
	Other – specify: Hospitals and Area Health Clinics
(4) In	dicate CoC's steps to ensure data quality of the unsheltered count (check all that apply):
	<b>Training</b> – Conducted training(s) for PIT enumerators.
	<b>HMIS</b> – Used HMIS to check for duplicate information.
	<b>Other</b> – specify: Written instructions provided to outreach workers and service providers.
	Follow up calls made to ensure accuracy of data.
(5) Ho	ow often will CoC conduct PIT counts of unsheltered homeless people in the future?
	Biennial (every two years)
	Annual
	Semi-annual
	Quarterly
	Other – specify:
(6) M	onth and Year when next PIT count of unsheltered homeless persons will occur:

<sup>\*</sup>Please refer to 'A Guide to Counting Unsheltered Homeless People' for more information on unsheltered enumeration techniques.

#### **CoC Homeless Management Information System (HMIS)**

#### M: CoC HMIS Charts

M-1: HMIS Lead Organization Information

Organization Name: Community Ser	vices Council of New	Contact Person: Chris S.	Pitcher
Hampshire			
Phone: (603) 228-2218 x261	Email: cpitcher@cscn	nh.org	
Organization Type: State/local gover	nment Non-profit	/homeless provider 🛚	Other _
			Other

#### M-2: List HUD-defined CoC Name(s) and Number(s) for every CoC in HMIS Implementation:

<b>HUD-Defined CoC Name*</b>	CoC #	<b>HUD-Defined CoC Name*</b>	CoC #
New Hampshire Balance of State CoC	NH-500	Manchester CoC	NH-501
Nashua/Hillsborough County CoC	NH-502		

<sup>\*</sup>Find HUD-defined CoC names & numbers at: http://www.hud.gov/offices/adm/grants/fundsavail.cfm

#### M-3: HMIS Implementation Status

HMIS Data Entry Start Date for your CoC OR	If no data entry date, indicate reason:
Anticipated Date Entry Start Date for your CoC	☐ New CoC in 2007
(mm/yyyy)	Still in planning/software selection process
02/2005	☐ Initial implementation

#### Briefly describe significant challenges/barriers the CoC has experienced in:

#### 1. HMIS implementation:

The NH-HMIS Project team, through its participation in CoC meetings, site visits and monitoring, and the NH-HMIS Advisory Council, has worked to identify barriers to HMIS participation.

There are many homeless service providers that have limited staff and they are finding it difficult to identify staff to enter data into NH-HMIS. Additionally, these providers frequently have high staff turnover rates that require an on-going training effort.

Personnel turnover was a challenge faced by the NH-HMIS implementation. NH-HMIS hired a new program coordinator in October 2005 and in September 2006. Our system administrator was out with a serious illness in early 2006. The staffing patterns have leveled out and are stable as of 2007.

#### 2. HMIS Data and Technical Standards Final Notice requirements:

NH-HMIS has found some difficulties in obtaining the HUD Minimum and Program Specific Data Elements from some homeless service providers. There are some confidentiality issues with such fields as: HIV/AIDS, Mental Health, Substance Abuse, and Domestic Violence, due to state confidentiality and HIPAA laws.

#### M-4: CoC Client Records

Calendar	Number of Client Records Entered in HMIS /	Number of Unduplicated Clients Entered in
Year	Analytical Database (Duplicated) for CoC	HMIS / Analytical Database for CoC
2004	0	0
2005	582	574
2006	478	463

Please provide a brief explanation of the reason(s) for any decreases in the number of records (duplicated or unduplicated) from year to year. In 2005, GNCOC entered 582 client records that included several programs that entered information for clients who were served in prior years. In 2006, the majority of programs were already fully operational and were not entering prior years' data. The number of client records going forward should be more consistent.

#### M-5: Data Collection/Completeness and Coverage

(a) Indicate the percentage of unduplicated client records with null or missing values on the date that the point-in-time count was conducted.

Universal Data Element	% Null/Missing Values	Universal Data Element	% Null/Missing Values
Name	1.8%	Gender	1.4%
Social Security Number	0.0%	Veteran Status	38.9%
Date of Birth	43.9%	Disabling Condition	61.9%
Ethnicity	43.7%	Residence Prior to Program Entry	52.1%
Race	41.4%	Zip Code of Last Permanent Address	67.1%

Briefly describe how the CoC ensures that valid program entry and exit dates are being recorded in the HMIS for persons served. NH-HMIS conducts annual monitoring visits for participating agencies and programs. During the monitoring visits, NH-HMIS staff review client files for completeness, accuracy and compare them to HMIS records. NH-HMIS staff verifies program entry and exit dates for all client files monitored.

(b) Indicate current OR anticipated HMIS bed coverage of 75% for each housing type.

	75% bed coverage	Anticipate 75% bed coverage	Date anticipate achieving
Emergency Shelter	No	Yes	January 2008
Transitional Housing	Yes		
Permanent Supportive Housing	Yes		

(c) If CoC has not yet achieved or does not anticipate achieving 75% bed coverage for all beds (including DV beds), please explain why.

M-6: Training, Data Quality and Implementation of HMIS Data & Technical Standards

	Y	N	P
1. Training Provided:			
Basic computer training		X	
HMIS software training	X		
Privacy / Ethics training	X		
Security Training	X		
System Administrator training	X		

2. CoC Process/Role:			
Is the CoC able to aggregate all data to a central location at least annually?	X		
Does the CoC monitor compliance with HMIS Data & Technical Standards Final Notice?	X		
3. Security—Participating agencies have:			
Unique username and password access?	X		
Secure location?	X		
Locking screen savers?	X		
Virus protection with auto update?	X		
Individual or network firewalls?	X		
Restrictions on access to HMIS via public forums (e.g. PKI digital certificates or IP filtering)?		X	
4. Security—Agency responsible for centralized HMIS data collection and storage has	s:		
Procedures for off-site storage of HMIS data?	X		
Disaster recovery plan that has been <u>tested</u> ?	X		
5. Privacy Requirements:			
If your state has additional confidentiality provisions, have they been implemented?  Check here if there are no additional state confidentiality provisions.	X		
Is there a "Purpose for data collection" sign at each intake desk for all participating agencies?	X		
Has each participating agency adopted a written privacy policy, including the uses and disclosures of client information?	X		
Does each participating agency have a privacy policy posted on its website (if applicable)?			X
6. Data Quality—CoC has process to review and improve:			
Client level data quality (i.e. missing birth dates etc.)?	X		
Program level data quality (i.e. data not entered by agency in over 14 days)?			X
CoC bed coverage (i.e. percent of beds)?	X		
7. Unduplication of Client Records—the CoC:			
Uses only HMIS data to generate unduplicated count?	X		
Uses data integration or data warehouse to generate unduplicated count?			X
8. OPTIONAL: Uses of HMIS Data—CoC uses HMIS data for:			
Point-in-Time Count			X
Project/Program performance monitoring			X
Program purposes (e.g. case management, bed management, program eligibility screening)	X		
Statewide data aggregation (e.g. data warehouse)			X

O: CoC Discharge Planning Policy Chart

Publicly Funded Institution(s) or System(s) of Care in CoC Geographic Area	None	Initial Discussion	Protocol in Development	Formal Protocol Finalized	Formal Protocol Implemented
<b>Foster Care</b>					
Health Care					
<b>Mental Health</b>					
Corrections					$\boxtimes$

Foster Care: Aftercare planning for children 16 and older (or younger for special needs children) includes: adult living preparation, educational and career planning, employment options, vocational training programs, adult advocates and mentors, family supports, medical coverage, and adult housing options or alternatives that are safe and affordable. According to the Bureau of Homeless Housing and Transportation Services (BHHTS) shelters and McKinney Vento funded TH and PH programs are not appropriate housing for this population. The DCYF Teen Independent Living Aftercare Program (TIL Aftercare Program) is a voluntary program that provides continued planning and support for eligible young adults between the ages of 18-21 formerly in DCYF/DJJS foster care. This program offers a range of supports and services designed to assist young adults in reaching their educational, employment and personal goals including limited services and funds for household related expenses. This Discharge Planning Protocol is understood and agreed to by the Greater Nashua COC and the systems of care in the CoC geographic area identified in Exhibit 1, Chart B.

Locally, a committee meets biannually to find the gaps in the State program plans and to fill them with local responses.

**Health Care:** A revised Homeless Prevention Discharge Plan was adopted by both the Discharge Planning Committee and the DHHS Commissioner in March 2007. Members from various health care providers, including Greater Nashua COC members, were represented. A protocol was established as part of the plan that calls for health care providers to communicate with homeless outreach services and housing resources and to provide human services resource packets for distribution to patients who are homeless upon admission and/or identified as at risk of homelessness upon discharge. This Discharge Planning Protocol is understood and agreed to by the Greater Nashua COC and the systems of care in the CoC geographic area identified in Exhibit 1, Chart B.

Mental Health: Development of an individualized discharge plan is initiated by the assigned treatment team upon admission and modified to reflect new data throughout the treatment planning process. The patient/legal guardian, family and significant others, as well as relevant outpatient providers are included in the development and implementation of the discharge plan. It is designed to facilitate a smooth transition of the patient from the Hospital to home, community or other facility in a manner that will minimize delays in discharge and offer a continuum of care between the Hospital and anticipated care providers. Discharge planning shall be conducted in accordance with all federal, state and regulatory requirements. The Administrator, Community Integration, under the direction of the Medical Director, oversees this process. This Discharge Planning Protocol is understood and agreed to by the Greater Nashua COC and the systems of care in the CoC geographic area identified in Exhibit 1, Chart B.

**Corrections:** \* The Department of Corrections has a formal protocol in place for parolees. The Protocol includes participants developing a formal discharge/parole plan, residing in an on-site transitional housing facility and accessing Department Halfway Houses upon release. DHHS is in the process of entering into a Memorandum of Agreement with the Department of Corrections regarding Medicaid eligibility determination at least 90 days prior to an inmate's release. This Discharge Planning Protocol is understood and agreed to by the Greater Nashua COC and the systems of care in the CoC geographic area identified in Exhibit 1, Chart B.

Locally, police departments work with social service providers as necessary to ensure some form of housing is available for those being released into the community.

#### P: CoC Coordination Chart

1. Consolidated Plan Coordination	YES	NO
a. Do Con Plan planners, authors and other Con Plan stakeholders participate in CoC general planning meetings?	$\boxtimes$	
b. Do CoC members participate in Con Plan planning meetings, focus groups, or public forums?	$\boxtimes$	
c. Were CoC strategic plan goals addressing homelessness and chronic homelessness used in the development of the Con Plan?		
2. Jurisdictional 10-year Plan Coordination		
a. Is there one or more formal jurisdictional 10-year Plan(s) being developed and/or being implemented within your CoC geography that are separate from the CoC 10-year plan? (If No, you may skip to Question 3a.)	$\boxtimes$	
b. Do 10-year Plan conveners, authors and other stakeholders participate in CoC general planning meetings?	$\boxtimes$	
c. Have 10-year Plan participants taken steps to align their planning process with the local CoC plan?	$\boxtimes$	
d. Were CoC strategic plan goals used in the development of the 10-year Plan(s)?	$\boxtimes$	
e. Provide the number of jurisdictions within your CoC geography that have formally implemented a 10-year plan(s).	1	
3. Public Housing Agency Coordination		
a. Do CoC members meet with CoC area PHAs to improve coordination with and access to mainstream housing resources?	$\boxtimes$	

<sup>\*</sup>Please note that "corrections" category refers to local jails and state or federal prisons.

#### Part IV: CoC Performance

#### **U: CoC Achievements Chart**

2006 Objectives to End Chronic Homelessness and Move Families and Individuals to Permanent Housing	12-month Measurable Achievement Proposed in 2006  (from Chart N of your 2006 CoC application)	Accomplishments  (Enter the numeric achievement attained during past 12 months)
1. Create new PH beds for chronically homeless persons.	1.1 Create total of 10 additional PH beds.	Created 4 additional beds for chronically homeless individuals.
2. Increase percentage of homeless persons staying in PH over 6 months to 71%.	2.1 Maintain percentage of homeless persons staying in PH at 71%.	Increased percentage of homeless persons staying in PH to 85%.
3. Increase percentage of homeless persons moving from TH to PH to 61.5%.	3.1 Increase percentage of homeless persons moving from TH to PH by 23%.	Increased percentage of homeless persons moving from TH to PH to 59%.
4. Increase percentage of homeless persons becoming employed by 11%.	4.1 23% of employable homeless population will be employed.	Increased percentage of homeless persons becoming employed to 52%.
5. Ensure that the CoC has a functional HMIS system.	5.1 75% of all ES and TH providers shall report HUD minimum required data for 75% of their client population.	85.75% of ES and TH providers report HUD minimum required data for client population.

# Briefly explain the reasons for not meeting one or more of your proposed measurable achievements.

- **1.1** HUD Section 811 funding was not awarded, which would have created 4 additional beds for chronically homeless. The two remaining beds did not meet the HUD January deadline but came on line in March 2007 and will be on next year's NOFA.
- **3.1** Greater Nashua COC did exceed its established goal of 23% moving from TH to PH. Lack of affordable housing and PH beds prevented the GNCOC from meeting HUD's goal of moving 61.5% of clients from TH to PH.

# *OPTIONAL:* If desired, you may use this space to describe your CoC's most significant accomplishments over the past 12 months.

- 1. HOPWA grant to the City of Nashua and partners created 28 permanent housing beds for individuals/families living with AIDS.
- 2. For the first time in its history, the Greater Nashua COC Point-in-Time count shows there are zero homeless individuals who are HIV+.
- 3. Funding was awarded for two permanent supportive housing beds through the Samaritan Initiative.
- 4. Two permanent supportive housing beds for homeless individuals with mental illness were added.
- 5. Four permanent supportive housing beds for homeless individuals moving from transitional housing were added.
- 6. Twenty-bed transitional housing program for homeless Veterans opened in downtown Nashua.
- 7. Greater Nashua COC collaborated with the Manchester COC and Balance of State COC to coordinate the Point-in-Time count during the last week in January, 2007 to ensure greater accuracy.
- 8. Creation of a State-wide Point-in-Time Committee with New Hampshire's three continua to set methodology and process for conducting annual point-in-time count.
- 9. Greater Nashua COC improved advocacy efforts through committee re-structuring to include a Legislative Committee, thereby improving monitoring of critical state legislation and education efforts at the legislative level.
- 10. City of Nashua Community Development Division, AmeriCorps VISTA, and Livable Walkable Communities will hold the "First Annual Cultural Fest" in downtown Nashua in August 2007. The purpose will be to celebrate the various ethnic communities living in our area.

#### V: CoC Chronic Homeless (CH) Progress Chart

**1.** Enter the total number of chronically homeless persons in your CoC and the total number of permanent housing beds designated for the chronically homeless in your CoC for each year.

Year	Number of CH Persons	Number of PH beds for the CH
2005	166	115
2006	122	203
2007	95	207

Briefly describe the reason(s) for any increases in the total number of chronically homeless persons between 2006 and 2007: NOT APPLICABLE

**2.** Indicate the number of **new** PH beds in place and made available for occupancy for the chronically homeless between February 1, 2006 and January 31, 2007:

4\_\_\_\_4

**3.** Identify the amount of funds from each funding source for the development and operations costs of the **new** CH beds created between February 1, 2006 and January 31, 2007.
